

## Global Lighting & Energy Access Partnership (Global LEAP)

**Category:** Capacity Building

**Sub-Category:** Technical Assistance

**User:** Open to All

**Donors:** Clean Energy Ministerial (CEM), United States Department of Energy (DOE)

**Donor Countries:** Multi-donor, United States of America

**Description:**

LEAP works to catalyze markets through support for quality assurance frameworks, more efficient off-grid energy service technologies through its Awards programs and collaboration among donors in the off-grid lighting sector. The program is aimed at clean energy and energy efficiency suppliers, consumers, policymakers, & other stakeholders.
